Comprising a complete outfit for reproducing written or type written matter.

THE AUTOMATIC CYCLOSTYLE,

The Latest Improvement in Duplicating Apparatuses.

ADVANTAGES.

1. No skill required, the work being done automatically, a novice can at once obtain perfect copies.

2. Great uniformity of copies, the pressure being constant and regular the copies are all alike.

3. The process of re-inking is made much easier and cleaner, one inking suffices for 100 to 200 copies.

4. Equally adapted for reproducing written or type written matter.

5. Great speed in taking copies, it is only necessary to turn a handle which lifts and lowers the frame, and time is gained by having a less number of inkings.

THE MERITS OF THE CYCLOSTYLE ARE KNOWN SUFFICIENTLY TO REQUIRE NO ENUMERATION HERE, AND THIS NEW APPLIANCE FOR REPRODUCING THE COPIES WILL BE FOUND A GREAT ADVANCE WHERE MANY COPIES ARE REQUIRED AND IN A SHORT TIME, INKING, PRINTING, RAISING AND LOWERING OF FRAME AUTOMATICALLY DONE.

Any person forwarding parcels or goods, not exceeding Rs. 1,000 in value, from any station on the Railways above-mentioned for delivery at any station on a Railway belonging to the same group, can declare that they are to be sent value-payable. The Railway booking-clerk will then furnish a receipt-note with the letter V.-P. marked or stamped upon it.

Goods may be sent value-payable by any Railway by addressing the package to the sender himself. The sender must endorse the Railway Receipt to the Consignee for whom the package is intended, and present them open at the local Post Office, accompanied by the ordinary V.-P. memorandum duly filled up, the words "Railway Receipt Note" being entered in the spaces for description of the article. Each V.-P. memorandum should bear postage stamps of the value of two annas. The receipt-notes must not be enclosed in envelopes, but be presented open. The Post Office will then transmit the Railway receipt-note to the Post Office of destination, and effect delivery of it on the Consignor paying the value mentioned in the V.-P. memorandum. ***The Railway will not deliver up goods or parcels forwarded Value-Payable except on production of the corresponding receipt-note.***

The above rules are applicable to railway goods or parcels booked at any station on the North-Western State Railway for delivery from any Government Bullock Train Office on the Umballa-Simla line, and *vice versâ*.

The signature and address of the sender must be added. This declaration will be recorded in the Post Office.

The declared value must also be certified by the sender in figures and words immediately above the address on the envelope or cover of the letter or parcel. No correction or erasure is permissible in the writing or figures of the amount certified.

CURRENCY NOTES

Are issued from the following Circles and Sub-Circles:—Calcutta, having for its Sub-Circles, Allahabad and Lahore; Madras, having for its Sub-Circle, Calicut; Bombay, having for its Sub-Circle, Karachi; and Rangoon, having for its Circle all the territory under the Chief Commissioner of Burma.

Notes of one Circle are not interchangeable with those of another Circle, and cannot be cashed at par except within their own Circle or Sub-Circle. A commission of one per cent., usually is charged by Bankers for cashing notes of foreign Circles.

The Numbers and Indicating Letters should be carefully noted when receiving, and parting with, Notes.

The value of a whole Note lost in post or otherwise cannot be recovered from Government, except by a special order of Government, under very special circumstances.

The value of Notes mutilated may be recovered on the circumstance being reported to the Commissioner of Paper Currency of the Circle to which the Note belongs, with its number, date, &c., who, after a certain time, will pay the amount on an indemnity-bond to be granted by the principal and two securities.

The value of a half Note, the other half of which has been lost, may be recovered in the same manner.

A Note lost should at once be reported to the Commissioner of Paper Currency of the Circle to which it belongs, with its number, &c., for the purpose of its being noted.

The Government cannot refuse to cash a Currency Note by whomsoever presented, but the name and address of the presenter will be taken and reported to the rightful owner for him to take whatever steps he may think necessary.

Any person who has come into possession honestly of a mismatched Note, may, if he desires, leave it in deposit at the Currency Office of the Circle concerned, in order that, if the corresponding half turns up, he may be put in the way of recovering the value. If the halves are not claimed within three years half the value of the mismatched Note will be paid to the depositor.

At a Special General Meeting of the Chamber, held on the 4th of October 1883, *the following Resolution was adopted*:—

That Rule I under the Chamber's Tonnage Schedule be altered as follows, in accordance with the Resolutions proposed and adopted by the Mercantile Community at their Meeting on the 3rd July 1883, and in accordance with the notice issued by the Chamber of Commerce on the 4th July 1883, under Rule 23 of the Chamber, *viz.*,—

1. That where freight is payable by measurement, measurement be by sworn measurers, to be placed under the direction of the Bengal Chamber of Commerce.

2 That measurement be taken at place of shipment, *i.e.*, exporting wharf, jetty, or press-house

where adjacent to place of shipment, at measuring Superintendent's discretion; but only whilst the bales are actually being removed in course of shipments.

3. Such measurement be final.

4. That in cases of shut-out cargo, or cargo transferred from one vessel to another, original measurements to hold good.

5. But that any cargo re-landed be re-measured.

6. That measurement be taken at the largest part of the bale, inside the lashing on the one side and outside on the other.

7. That the measurement of jute shipped without measurement shall be entirely at shipper's risk, and that measurement be a matter of special arrangement between the shippers and ship. Further, that all expenses connected with the measurement thereof be payable by the shippers.

8. That all cotton and other baled cargo arriving at the East Indian Railway Company's terminus at Howrah for shipment direct by boat be measured by the sworn measurers in the Railway Company's sheds, while being removed in actual course of shipment.

9. All baled cargo pressed at, or exported from, any of the press-houses to which a sworn measurer may be attached, be treated in the manner as jute, and as provided for in the 2nd Resolution.

10. Gunny bales packed at, or exported from, mills within the limits of the port, be also measured as described in the 2nd Resolution.

11. That gunny bales or other cargo exported by boat direct, from outside the limits of the port, be measured by the sworn measurers on the deck of the ship or alongside; but it shall be optional with outside mills and press-houses to make arrangements with the Managing Committee, on such terms as may be mutually agreed on, for the attendance of sworn measurers at their ordinary shipping wharves for measurements in accordance with Rule 2.

12. That all baled, cased, or other cargo not provided for in any of the foregoing Resolutions, and which at present is measured on this side, under any of the Tonnage Schedules now in use in the port, or which may require to be measured on this side by a special arrangement made between shippers and ship, that all such cargo be measured on the Custom House Wharf (if for export by boat), or in the jetty sheds (if for shipment through the jetties), by the sworn measurers.

13. That for the present the sworn measurers to be appointed to carry out this scheme, be placed under the direction of a representative Committee, to be nominated by the Committee of the Chamber of Commerce.

14. That the charge for measurement be defrayed by the ship.

At a Special General Meeting of the Chamber, held on the 29th November 1883, *it was resolved*—

*** The Standard Ton at Bombay for Measurement of Goods shall be taken at 50 cubic feet for ships.

Rules and Regulations—*For the Measurement by Callipers upon Exports from Bombay of Cotton, Wool, Hemp, and other Pressed Bales.*

I. Callipers shall from time to time be submitted to the Secretary of the Chamber of Commerce, and, if found correct, shall be branded with a stamp bearing the name of the Chamber, to indicate the same.

II. If, from use or otherwise, any Calliper should get out of order, and be objected to, the party objecting shall send the Callipers to the Chamber for examination; and should the objection be valid, the Chamber's stamp shall be defaced by the Secretary. If, however, the objection is found to be groundless, the Secretary shall give a note to that effect, and the party objecting shall be bound by his decision.

III. Any Callipers found incorrect, and on which the stamp has been defaced, may be re-stamped after adjustment.

IV. No measurements shall be held good except such as are taken by Callipers bearing the Chamber's stamp.

V. Public Measurers shall be appointed under the authority of the Chamber of Commerce, and stationed at the different Bunders, to measure pressed bales of Cotton, Wool, Hemp, and other merchandise.

VI. A fee, the amount of which shall in no case exceed half an anna per bale, but which may be regulated by the Chamber from time to time in order to meet the expenses of the necessary establishment, shall be levied on all bales measured by the duly appointed Measurers.

VII. No bales shall be measured without the production of the Custom House Pass bearing the endorsement of the Measurement Fee clerk, to the effect that the fee has been paid.

VIII. The Measurers shall measure not less than five bales in every hundred, ascertaining the length of the bale and the greatest width and depth over the lashings and as near the centre of the bale as possible, but not over the knots.

IX. The Measurer shall give a Certificate of Measurement, which must accompany the bales to the ship or steamer, and shall furnish the Shipper with a copy thereof. This certificate, which shall be retained by the ship, shall state—

The date and hour of measurement.	The name of the ship or steamer.
The number of the boat.	The number of bales.
The name of the tindal.	The marks of the bales.
The name of the shipper.	The measurement.

X. The Shipper shall, if required, in writing, give the Agent of the ship or steamer notice in writing of the time when, and the name of the Bunder on which, his bales will be measured, in order that the ship or steamer may be represented.

XI. The bales shall be alongside the ship or steamer within 36 hours after measurement, weather permitting, or the certificate shall be void, and the bales shall be re-measured on board; written notice, however, in such case being given to the Shipper, so that he may have the option of attending.

XII. The salaries of the Measurers, and all other expenses connected with this scheme of measurement, shall be paid by the Chamber from the fee fund raised under these rules.

XIII. All matters pertaining to the measurement of Cotton, as defined above, including the appointment of the Measurers, the fixing of their salaries, the payment of the same, and the doing of all things necessary for a proper and economical working of the scheme, shall be placed in charge of the General Committee of the Chamber.

XIV. No refund of Measurement Fees shall be allowed for sums under one rupee.

XV. No claims for refund shall be allowed, unless presented within one month from the date of vessel's departure.

BRITISH INDIAN WEIGHTS.

The *Unit* of the British Ponderary System is called the *Tola*. It weighs 180 grains English Troy Weight. From it upwards are derived the heavy weights, *viz.*, *Chuttack*, *Seer*, and *Maund*; and by its sub-division, the small or jewellers' weights called *Mashas*, *Ruttees* and *Dhans*:

1 Dhán or grain	...	=	$\frac{16}{32}$	grain Troy	=	$\frac{1}{175}$	dr. Avoir.
4 Dháns	= 1 Ruttee	=	$1\frac{7}{8}$	"	=	$\frac{17}{175}$	"

40 Seers	= 1 Mun	=	100	lbs. Troy	=	$82\frac{2}{7}$	"

TO CONVERT INDIAN WEIGHT INTO AVOIRDUPOIS.

Multiply the weight in Seer by 72, and divide by 35; the result will be the weight in lb Avoirdupois; or multiply the weight in maunds by 36, and divide by 49; the result will be the weight in cwt. Avoirdupois.

TO CONVERT AVOIRDUPOIS WEIGHT INTO INDIAN WEIGHT.

Multiply the weight in lb Avoirdupois by 35, and divide by 72; or multiply the weight in cwt. by 49, and divide by 36; the result will be the weight; in the former, in Seers; in the latter, in Maunds.

A Ton is equal to 27·222 Maunds, or 27¼ Maunds nearly.

3 Unglis „ 1 Girah ... „ = 2¼ Inches.
8 Girahs make 1 Hath ... say = 18 Inches.
2 Haths „ 1 Guz ... „ = 1 Yard.

N.B.—The Guz varies in different localities from 24 to 36 Inches.

There appears to be no Indian measures of capacity for Dry and Liquid goods, which are sold by weight. Wherever, for the sake of convenience, measures are employed, they are intended to represent some specific weight of a *Seer*, *Chittack*, &c.

Lineal Measure.

Notwithstanding that the cubit or human forearm is the basis or unit in Oriental and Western countries, there is no fixed standard established in India.

In Bengal the measure mostly used is the following:—

1 Hath (Cubic)= 18 Inches; 4 Haths= 1 Danda or= 2 Yards; 2,000 Dandas= 1 Coss.

The Coss or Bengal mile is equal to 1 mile, 1 furlong, 3 poles, 3⅛ yards English.

The Indian Imperial Coss is equal to 2¼ miles nearly.

In the N.-W. Provinces the average distance is about 2 miles, but it differs in almost every province in the country. For instance, in Agra and Muttra, the coss is about 1¾ miles; towards the Hills the coss is a little more than a mile; in Bundelkhund is three as long as in other parts and is called a *Pucca coss*; while in the Doab is the *Gow coss*, or as far as the lowing of a cow is heard at dead of night.

Bengal Square or Land Measure.

20 Uswansees= 1 Suswansee; 20 Suswansees = 1 Kuchwansee; 20 Kuchwansees = 1 Biswansee; 20 Biswansees = 1 Biswa; 20 Biswas = 1 Beegah.

There is, however, no fixed standard Beegah; almost every district has its own local measurement.

Assam Land Measure

The Hindoo Astronomical Year is 5 days, 6 hours, and 48 minutes shorter than ours.

* These are Bengal weights, and not used in the N.-W. Provinces.

The following Tables have been calculated on the old elements of Indian weights. If it were necessary to convert old Bazar Maunds into new ones, the operation would consist simply in the following rule:—A (the old weight): Y (the new weight):: 1,79,666 : 1,80,000.

DUE DATE TABLES.

To calculate the due date of any Bill. A Bill dated 23rd August 1890 @ 53 days after date 53 + 3 (days of grace) + 3 (of the 23 in date) = 59 days after the 20th August, look under August 20 in table, run down to 60 days in the marginal column 59 = 1 day short of 60, *viz.*, October 18th.

To find days to run on a pre-dated Bill. A Bill dated 19th July @ 95 days date is presented for discount on the 23rd August. The due date to be found as per example above is October 25th: under 20th August find October 25 (October 19 + 6) and refer to margin which shews 66 days, deduct 3 of the date 23rd August, and you have 63 days to run from 23rd August

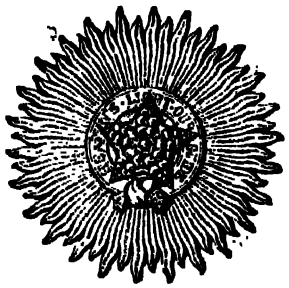
THE MOST EXALTED ORDER OF THE STAR OF INDIA

INSTITUTED 1861.



STAR, COLLAR AND BADGE.

INSIGNIA.

THE BADGE is an onyx cameo of Her Majesty's effigy, set in a gold and ornamented oval enamelled in light blue, inscribed with the motto of the Order "HEAVEN'S LIGHT OUR GUIDE" in diamonds, surmounted by a Star of five points in Silver. The Riband of the Order is light blue, having a narrow white stripe towards either edge, and is worn from the right shoulder to the left side.

THE COLLAR is composed of the lotus of India, of palm branches, in saltire, tied together by a Riband, and of the united Red and White Rose in the centre of the Imperial Crown. All richly enamelled on gold, in their proper colours, and linked together by chains of gold to the said Crown.

THE STAR is composed of rays of gold issuing from a centre, having thereon a Star in diamonds, resting upon a light blue enamelled circular riband, tied at the ends, inscribed with the motto of the Order, *viz.* "HEAVEN'S LIGHT OUR GUIDE" also in diamonds.

THE MANTLE—Light blue satin, lined with white silk, and fastened with a cordon of white silk, having blue and silver tassels attached thereto, and a representation of the Star of the Order on the left side.

THE MOST EXALTED ORDER OF THE STAR OF INDIA was instituted by Her Majesty Queen Victoria, 23rd February, 1861; and enlarged, 28th March, 1866; and again in 1875 and 1876.

The Order consists of the Sovereign, the Grand Master and 246 Ordinary Members, together with such Extra Honorary Members as Her Majesty, Her heirs and successors, shall from time to time appoint. The 246 Ordinary Members are divided into three classes. The First Class are styled Knights Grand Commanders, and consist of thirty Members (eighteen Natives and twelve Europeans); the Second Class, of seventy-two Members, styled Knights Commanders; the Third Class of one hundred and forty-four Members, styled Companions. Her Majesty's Viceroy and Governor-General of India is Grand Master.

The Statutes enable the Sovereign to confer the dignity of Knight Grand Commander of the Order upon such Princes and Chiefs of India as shall have entitled themselves to Her Majesty's favour, and upon such of Her Majesty's British subjects as have, by important and loyal services rendered by them to the Indian Empire, merited the Royal favour; and the Second and Third Classes upon persons who by their conduct or services in the Indian Empire, have merited the Royal favour. THE MOST EMINENT ORDER OF THE INDIAN EMPIRE.

INSTITUTED 1877.

THE STAR is composed of five rays of silver, having a smaller ray of gold between each of them, the whole alternately plain and scaled, issuing from a gold centre having thereon Her Majesty's effigy within a purple circle, inscribed with the motto of the Order "Imperatricis Auriclis," in letters of gold, the circle surmounted by an Imperial Crown also gold.

The COLLAR is composed of Elephants, Lotus Flowers, Peacocks in their pride, and Indian Roses, having in the centre of the said collar an Imperial Crown, the whole lined together by chains, all of gold.

The BADGE is an enamelled gules barbedvert, having in the centre Her Majesty's effigy within a purple circle, inscribed with the motto of the Order in letters of gold, surmounted by an Imperial Crown also gold. The Riband is Imperial purple, four inches in width, and is worn from the right shoulder to the left side.

The MANTLE is of purple satin, lined with white silk, fastened with a cordon of white silk, having two purple silk and gold tassels attached thereto, on the left side of which mantle is embroidered a representation of the Star of Order.

The Knights Commanders wear around their necks a Riband of the same colour and pattern as that of the First Class, but two inches in width, and pendant therefrom the Badge which is of smaller size than that appointed for the Knights Grand Commanders. On their left breast they wear a Star like that of the First Class, except that it is of silver, and is composed of rays alternately bright and chipped, issuing from a gold centre.

The Companions wear a Badge of the same form and appearance of that appointed for the Knights Commanders, but of smaller size, pendant to a Riband of the same colour and pattern, one and-a-half inches in width, attached by a buckle from their left breast.

The ORDER OF THE INDIAN EMPIRE was instituted by Her Majesty Queen Victoria, Empress of India, 1877, to reward services rendered to Her Majesty and Her Indian Empire and to commemorate the proclamation of Her Style and Title of Empress of India, and consists of the Sovereign, Grand Master and Companion. It was enlarged in 1886 and 1887.

The ORDER consists of the Sovereign, the Grand Master, and three several classes of Knights Grand Commanders (25), Knights Commanders (50) and Companions, together with such Honorary and Extra Members as Her Majesty, Her heirs and successors, shall from time to time appoint. Her Majesty's Viceroy and Governor-General of India for the time being is Grand Master.

The Statutes enable the Sovereign to confer the dignity of a Knight Grand Commander upon such persons as have, by their services, official or other, to Her Majesty's Empire in India, merited the Royal favour, and upon such distinguished Representatives of Eastern Potentates as Her Majesty, Her heirs and successors, may think fit.

The Knights Grand Commanders, Knights Commanders and Companions of this Order have place and precedence next to, and immediately after, the Knights Grand Cross, Knights Commanders and Companions, respectively, of the Order of St. Michael and St. George.

SOVEREIGN.

Her Most Gracious Majesty the QUEEN, EMPRESS OF INDIA.

GRAND MASTER.

HANDBOOK OF INDIAN LAW,

A Popular and Concise Statement of the Law

WITH FULL INDEX

By a Barrister-at-Law and Advocate of the High Court.

THIS handbook has been designed primarily for the use of the non-legal public and for students. The object of its author has been to present, in as concise and popular form as the nature of the subject admits, an abridgement of the law, criminal and civil (excluding the personal law of Hindus and Mahommedans) generally in force throughout British India.

Every endeavour has been made to give an intelligible as well as an accurate presentment of the subject. All amendments of the law made up to date have been duly noted. The authorities for every statement have been given, the cases being cited in the usual manner.
